Sacramento, California 95828

NOTICE OF PROVISIONAL INSPECTION VIOLATION SCORES, 2019 FACILITY VIOLATION SCORING PROCEDURE SCORE, AND 2019 COMPLIANCE TIER ASSIGNMENT

Dear Mr. Randy Harvey:

2019 Facility Violations Scoring Procedure (VSP) Score: 1.50
2019 Compliance Tier Assignment: Acceptable

The purpose of this letter is to provide Safety-Kleen of California - Davis, CAD982446874, located at 44561 Road 30-B, Davis, CA 95616 (hereinafter, the "Facility") with a provisional inspection violation score for each compliance inspection that was conducted during the preceding ten (10) year period beginning January 1, 2009, through December 31, 2018, the Facility's 2019 VSP Score, and compliance tier assignment pursuant to California Code of Regulations (CCR), title 22, section 66271.53, subdivision (b)(2) and section 66271.54, subdivisions (c).[1]

The provisional inspection violation scores for the Facility are provided in the enclosed Violation Scoring Matrix. A provisional inspection violation score is the sum of the initial score for each Class I violation that occurred during a compliance inspection, and any adjustment to the initial Class I violation score based on repeat violations.[2] (See 22 CCR § 66271.53, subd. (a).) The basis for the score for each Class I violation is also provided in the enclosed Violation Scoring Matrix.

[1] Pursuant to Senate Bill (SB) 673 (Stats. 2015, chapter 611), the Department of Toxic Substances Control (DTSC) adopted new hazardous waste permitting criteria regulations, which became effective on January 1, 2019. The full text of the hazardous waste permitting criteria regulations is available at https://www.dtsc.ca.gov/LawsRegsPolicies/Regs/upload/18-DTSC-SB-673-Reg-TEXT_OAL_20181023-revised.pdf. More information regarding SB 673 is available at https://www.dtsc.ca.gov/HazardousWaste/Permit_Roundtables.cfm.

[2] For purposes of calculating a facility's inspection violation score, DTSC may also consider Class II violations that meet the definition of a Class I violation as specified in CCR, title 22, section 66260.10. (See 22 CCR § 66271.50, subd. (d)(1).)

Printed on Recycled Paper

Based on the provisional inspection violation scores for the Facility for the ten (10) year period beginning January 1, 2009, through December 31, 2018, DTSC has calculated a Facility VSP Score for the Facility of "**1.50**". A Facility VSP Score is the sum of all provisional or final inspection violation scores for each compliance inspection conducted during the preceding ten (10) years, divided by the number of compliance inspections. (See 22 CCR § 66271.54, subd. (a).)

A facility may be assigned to one of three compliance tiers based on its Facility VSP Score:

- "Acceptable." A facility that receives a Facility VSP Score of less than 20 shall be designated as having a Facility VSP Score that is "acceptable". (See 22 CCR § 66271.54, subd. (b)(1).)

- "Conditionally Acceptable." A facility that receives a Facility VSP Score equal to or greater than 20 and less than 40 shall be designated as having a Facility VSP Score that is "conditionally acceptable." Facilities that receive a final compliance tier assignment of "conditionally acceptable" are required to comply with additional requirements outlined in the regulations. (See 22 CCR § 66271.54, subd. (b)(2); 22 CCR § 66271.56.)

- "Unacceptable." A facility that receives a Facility VSP Score equal to or greater than 40 shall be designated as having a Facility VSP Score that is "unacceptable." DTSC is required to initiate permit denial, suspension, or revocation proceedings for facilities that receive a final compliance tier assignment of "unacceptable." (See 22 CCR § 66271.54, subd. (b)(3); 22 CCR § 66271.57.)

As a result of the Facility's VSP Score, DTSC has assigned the Facility to a compliance tier of "**Acceptable**". Generally, as discussed further below, a facility's compliance tier assignment becomes final after all provisional inspection violation scores upon which the Facility VSP Score is based become final pursuant to CCR, title 22, section 66271.53, subdivision (d).

Provisional Inspection Violation Score Disputes and Compliance Tier Assignment Challenges

An owner or operator of a facility may dispute a provisional inspection score pursuant to CCR, title 22, section 66271.53, subdivision (c) by filing a Provisional Inspection Violation Score Dispute Document (template available at https://dtsc.ca.gov/violations-scoring-procedure/) within sixty (60) calendar days of this notice. All of the following information must be enclosed with the Dispute Document cover letter:

- A statement that describes in detail the factual and legal basis of the dispute and the relief sought;

- Any claimed erroneous facts, assumptions, approaches, or conclusions of law made by DTSC;

- A statement describing in detail any efforts already made by the owner or operator to resolve the dispute with DTSC; and
- Any photographs, documents, or any other material that supports the owner's or operator's position regarding the disputed provisional inspection violation score.

The owner or operator of a facility may request a one-time extension of up to sixty (60) calendar days to submit a Provisional Inspection Violation Score Dispute Extension Document (template available at https://dtsc.ca.gov/violations-scoring-procedure/).

DTSC will issue a written decision, granting or denying, in whole or in part, the relief sought by the owner or operator of a facility disputing a provisional inspection violation score. A provisional inspection violation score will become the final inspection violation score consistent with DTSC's written decision. A provisional inspection violation score will also become the final inspection violation score if the owner or operator of a facility does not file a Dispute Document within sixty (60) calendar days of this notice.

A facility's compliance tier assignment becomes final after all inspection violation scores upon which the Facility VSP Score is based become final pursuant to CCR, title 22, section 66271.53, subdivision (d). Final compliance tier assignments of "acceptable" or "conditionally acceptable" are not subject to additional administrative dispute resolution. (See 22 CCR § 66271.54, subds. (e), (f).) However, owners or operators of facilities assigned to a final compliance tier of "unacceptable" may further administratively challenge their final compliance tier assignment under California Code of Regulations, title 22, section 66271.57.

Issuance of this provisional inspection violation score, Facility 2019 VSP Score, and compliance tier assignment do not constitute an enforcement action. If you have any questions regarding this notice, please contact VSP_Info@dtsc.ca.gov. If you have any questions regarding the dispute process, please contact VSP_Dispute_Inbox@dtsc.ca.gov.

Sincerely,

Keith Kihara, Chief
Enforcement and Emergency Response Division

Inspection Type:	CEI & FRR												
Class I Violations:	1	The deviation from the requirement was significant enough that it could have resulted in a failure to prevent releases of HW or constituents to the environment during the active period of facility operation.	22 CCR 66264.175(a)	The facility did not meet the secondary containment requirements for Unit #3 "Truck to Truck Transfer, Loading, and Unloading Area." The secondary containment was observed to be inadequate in that it could not adequately contain rainwater or the contents of a 7,000 gallon tanker truck.	Minimal	Inadequate secondary containment volume has the potential to result in release(s) to the environment due to potential overflow outside of the containment. Cracks not repaired in secondary containment also facilitated downward migration of release(s). The facility's permitted wastestreams included used oil, antifreeze, and non-RCRA wastewater with a maximum permitted storage capacity of 48,500 gallons. Minimal designation assigned due to the wastestreams at issue.	Moderate	Rainwater was observed flowing over the secondary containment berm during the inspection demonstrating the inadequacy of the secondary containment capacity. The violation deviated from the requirement, but the requirement functioned to some extent as some of the rainwater was contained within the secondary containment structure.	6	No	n/a	0	6.00

PROOF OF SERVICE

1. I served the NOTICE OF PROVISIONAL INSPECTION VIOLATION SCORES, 2019 FACILITY VIOLATION SCORING PROCEDURE SCORE, AND 2019 COMPLIANCE TIER ASSIGNMENT on Randy Harvey, Safety-Kleen of California- Davis, EPA ID Number CAD982446874.

2. I served Randy Harvey, Safety-Kleen of California- Davis, by mailing a copy of the aforementioned document via Certified Mail, Receipt No. 7018-0680-0000-9827-9959, return receipt requested, in a sealed envelope addressed to:

   Mr. Randy Harvey
   Safety-Kleen of California - Davis
   6000 88th Street
   Sacramento, California 95828

3. My name, business address, and telephone number are:

   Alan Korematsu
   Department of Toxic Substances Control
   HWMP, 11th Floor
   1001 I Street
   Sacramento, California 95812-0806
   (916) 323-3706

I declare under penalty of perjury that the foregoing is true and correct and that this declaration of Proof of Service is executed on October 4, 2019 at Sacramento, California.
