

PUBLIC NOTICE
of a Class I Permit Modification

February 23, 2017

Modification: Recoating of a hazardous waste storage area

Location: Pacific Scientific Energetic Materials Company (PSEMC)
3601 Union Road, Hollister, California 95023

You are receiving this public notice as you are on the interested party mailing list for this Class I Hazardous Material Facility. This notice is provided in accordance with California Code of Regulations requirements¹ for notification of modifications to persons of the facility mailing list of facilities permitted to handle hazardous waste.

PSEMC is a 290-acre facility located ~2 miles west of Hollister that manufactures explosives and explosive devices for various uses. The Class I Modification documented by this notice is characterized as *“equipment replacement or upgrading with functionally equivalent components”*. Specifically, the floor sealing of the facility’s hazardous waste storage area (TSU-3) was resealed during the week of November 28th (4 day procedure) in accordance with manufacturer’s installation instructions in order to maintain the integrity of the surface coating storage facility. Details of this maintenance procedure and Department of Toxic Substances (DTSC) approval to proceed can be found on DTSC’s EnviroStor website, which contains the electronic archive of facility documents for this facility:

- http://www.envirostor.dtsc.ca.gov/public/hwmp_profile_report.asp?global_id=CAD009220898&starttab=

Should you have any questions, you may contact either the DTSC case officer for this facility or the PSEMC staff listed below:
