Add Section 66264.121 of title 22 of the California Code of Regulations, to read:

§ 66264.121. Postclosure Requirements for Facilities that Obtain Enforceable Documents in Lieu of Postclosure Permits

(a) Owners and operators who are subject to the requirement to obtain a postclosure permit under Section 66270.1(c), but who obtain enforceable documents in lieu of postclosure

1 permits, as provided under Section 66270.1(c)(7), must comply with the following
2 requirements:

- 3
- 4 (1) The requirements to submit information about the facility in Section 66270.28;
5
- 6 (2) The requirements for facility-wide corrective action in Section 66264.101 of this
7 chapter; and
8
- 9 (3) The requirements of Section 66264.91 through 66264.100.

10

11 (b)(1) The Department, in issuing enforceable documents in lieu of permits under this

25 to these public involvement procedures under paragraph (b)(2) or (3) of this section.

26

27 (2) If the Department determines that even a short delay in the implementation of a
28 remedy would adversely affect human health or the environment, the Department may
29 delay compliance with the requirements of (b)(1) of this section and implement the remedy
30 immediately. However, the Department must assure involvement of the public at the
31 earliest opportunity, and, in all cases, upon making the decision that additional remedial
32 action is not needed at the facility.

33

34 (3) The Department may allow a remediation approved by the Department and
35 initiated prior to **(date regulations enacted)** to substitute for corrective action required
36 under a postclosure permit even if the public involvement requirements of paragraph (b)(1)
37 of this section have not been met so long as the Department assures that notice and
38 comment on the decision that no further remediation is necessary to protect human health
39 and the environment takes place at the earliest reasonable opportunity after **(date**
40 **regulations enacted)**.

(c) Scope of the Permit Requirements. A permit is required for the “transfer,” “treatment,” “storage,” and “disposal” of any waste which is hazardous waste pursuant to section 66261.3. The terms “transfer,” “treatment,” “storage,” “disposal,” and “hazardous waste” are defined in section 66260.10. Owners and operators of hazardous waste management units shall have permits during the active life (including the closure period) of the unit. Owners or operators of surface impoundments, landfills, land treatment units, and waste pile units that received wastes after July 26, 1982, or that certified closure (according to section 66265.115) after January 26, 1983, shall have ~~post-closure~~ postclosure permits, unless they demonstrate closure by removal as provided under subsections (c)(5) and (6) of this section, or obtain an enforceable document in lieu of a postclosure permit, as provided under paragraph (c)(7) of this section. If a ~~post-closure~~ postclosure permit is required, the permit shall address applicable chapter 14 Water Quality Monitoring, Environmental Monitoring, Corrective Action, and ~~Post-closure~~ Postclosure Care Requirements of this division. The denial of a permit for the active life of a hazardous waste management facility or unit does not affect the requirement to obtain a ~~post-closure~~ postclosure permit under this section.

18

(7) Enforceable documents for postclosure care. At the discretion of the Department, an owner or operator may obtain, in lieu of a postclosure permit, an enforceable document imposing the requirements of Sections 66264.121 or 66265.121. “Enforceable document” means an order, a plan, or other document issued by the Department that meets the requirements of 40 CFR 271.16(e) including, but not limited to, a corrective action order issued by the Department under Health and Safety Code section 25187, a remedial action order issued by the Department under Health and Safety Code section 25355.5(a)(1)(B), or a closure or postclosure plan.
