NOTICE OF FINAL HAZARDOUS WASTE FACILITY PERMIT DECISION

In accordance with the requirements of California Code of Regulations (CCR), title 22, section 66271.14, the Department of Toxic Substances Control (DTSC) is issuing this Notice of Final Hazardous Waste Facility Permit Decision (Notice) for the following facility:

Chico Drain Oil Service - Chico
1618 West 5th Street
Chico, California 95928
EPA ID No. CAD 980694103

The Permit authorizes Chico Drain Oil Service – Chico to continue to store and transfer used oil and solids contaminated with oil at its facility at 1618 West 5th Street in Chico, California.

On September 25, 2009, DTSC informed the public of a 45-day public comment period on the Draft Permit by having a notice published in the Chico Enterprise Record. Copies of a Fact Sheet were mailed to persons on the facility mailing list. A paid public notice announcing the public comment period was aired on a local radio station. The public comment period began on September 25, 2009 and ended on November 10, 2009. DTSC received no comments on the Draft Permit. DTSC prepared a Notice of Exemption in compliance with the California Environmental Quality Act (CEQA).

Since no comments were received on the Draft Permit, the final Hazardous Waste Facility Permit becomes effective immediately on March 3, 2010 pursuant to California Code of Regulations, title 22, section 66271.14(b)(3).

DTSC made some non-substantive changes to the Final Permit solely for clarification purposes. A copy of the Final Permit, DTSC's memorandum listing the changes made to the Draft Permit, a redline/strikeout version of the Permit that shows the changes from the Draft Permit to the Final Permit, and the CEQA Notice of Exemption are available for review at:
