Safety-Kleen Systems Inc. Reedley Recycle Center

Draft Hazardous Waste Permit Renewal and Draft Corrective Measure Study

Reedley, California

PUBLIC COMMENT PERIOD: July 23, 2007 to September 6, 2007

WHAT'S BEING PROPOSED?

The Department of Toxic Substances Control (DTSC) invites you to comment on a draft permit renewal and draft Corrective Measure Study for the Safety-Kleen Systems, Incorporated, Recycle Center at 1000 South I Street in Reedley, California.

DTSC is the state agency responsible for regulating the generation, storage, treatment, and disposal of hazardous waste in California. If approved, the renewed permit would allow the facility to continue to store and treat hazardous waste. Safety-Kleen stores paint thinners, paint wastes, used oil, anti-freeze, dry cleaning solvents, and industrial solvents. Safety-Kleen also treats solvents, photo wastes, part washer solvents, and aqueous wastes.

As part of the permit process, DTSC has performed a review of the proposed draft permit renewal as required by the California Environmental Quality Act (CEQA). Based on this review, DTSC has determined that the proposed draft permit will not have any significant effects on public health or the environment. DTSC proposes to issue a CEQA Notice of Exemption in connection with this project.

The 45-day public comment period is from July 23, 2007 to September 6, 2007. Written comments must be postmarked or emailed by September 6, 2007 and sent to: Mr. Farshad Vakili, P.E., DTSC Project Manager, 8800 Cal Center Drive, Sacramento, CA 95826 or FVakili@dtsc.ca.gov.
