

**Department of Toxic Substances Control
Project Status Update
for
Wyle Laboratories Norco Facility Site
February 20, 2007**

Project Activities

- DTSC expects to receive Fourth Quarter 2006 Groundwater Monitoring report this week.
- DTSC continued to contact residents requesting signing of access agreements.

Activities completed last week:

Onsite:

- Conducted O&M activities on Compound Five.
- Conducted O&M activities on Compounds Three and Four.
- Installed transducers in wells associated with the Demonstration Plan.
- Surveyed onsite soil sampling locations.
- Received sodium permanganate for injection in F Area.

Offsite:

- Conducted soil gas sampling using vapor probes on Golden West Lane.

Activities planned for this week

Onsite:

- Conduct O&M activities on Compounds Three and Four.
- Initiate sodium permanganate injection in Area F.
- Conduct O&M activities on Compounds Five.

Offsite:

- None to report.

PUBLIC PARTICIPATION

- DTSC participated in community advisory group (CAG) meeting to provide project status, sub-slab soil gas sampling results at Norco High School, Science Building, and status of the Demonstration Plan.
