Department of Toxic Substances Control (DTSC) Project Status Update for Former Wyle Laboratories Norco Facility Site November 19, 2007

Open House

DTSC conducted an open house on November 14, 2007 to provide an update on the ongoing Wyle investigation. DTSC showed posters depicting the following activities:

- Indoor Air Testing at 27 homes
- Soil gas sampling at Norco High School Science Building
- Groundwater investigation
- Hydraulic Containment System
- Bedrock Evaluation in the Northwest Area
- Tracer Study in the Northwest Area
- Sodium permanganate study

DTSC staff was available to meet and interface with the attendees one-on-one to answer questions and/or discuss concerns. The attendees included community members, city council members, consultants, contractors and reporters.

Activities completed last week

Onsite:

- Conducted operations and maintenance (O&M) activities for soil vapor extraction system;
- Continued drilling extraction and monitoring wells in Northwest Area for the hydraulic containment system;

Offsite:

- Conducted indoor air testing at 2281 Golden West Lane home;
