

## **California rolls out new environmental regulatory regime at green Richmond ...**

San Jose Mercury News - 9 hours ago

RICHMOND -- State regulators gathered at a green stamp-making business Thursday to unveil what they tout as the nation's best approach to identify consumer products containing hazardous chemicals and prod manufacturers to find nontoxic substitutes.

## **What Does California's New Toxic Substances Law Mean for You?**

Huffington Post - Sep 26, 2013

Sometimes--though not often enough for my liking--companies that manufacture consumer products grow a conscience, cave to public pressure, or both, and vow to discontinue using toxic substances in their shampoo, window cleaner, or toothpaste. It's a step ...

## **California to review toxic substances in consumer products**

Los Angeles Times - Sep 26, 2013

SACRAMENTO — Hundreds of items found on supermarket shelves, such as shampoos, cleaning supplies, cosmetics and food packaging, could get chemical makeovers under new rules being put in force by California. On Thursday, state toxic chemical ...

## **California's Green Chemistry Law Goes Into Effect**

SustainableBusiness.com - 3 hours ago

Starting October 1, California's Safer Consumer Products law (also called the Green Chemistry Initiative) goes into effect, with the goal of making hundreds of commonplace consumer items safer - from shampoos and cosmetics, to cleaning supplies and food ...

## **California publishes candidate chemical lists**

Chemical Watch (subscription) - 5 hours ago

California's Department of Toxic Substances Control (DTSC) has published two lists of chemicals as part of the Safer Consumer Products Regulations (SCPR) that come into effect on 1 October. They are: an "informational candidate chemicals list" of 1,200 ...

## **State Moves to Protect Consumers From Toxic Chemicals in Everyday Products**

KQED (blog) - 5 hours ago

In Richmond yesterday, state toxic chemical regulators launched what they say is the nation's most comprehensive program for identifying and reformulating common consumer products containing hazardous chemicals. California's Safer Consumer Products ...

## **California to Manufacturers: Replace Toxic Chemicals in Products**

Environmental Leader - 6 hours ago

California regulators yesterday published a list of toxic chemicals found in hundreds of consumer products and will ask manufacturers to replace these chemicals with safer alternatives. State officials say this is the first step in implementing the Safer Consumer ...

## **DTSC releases initial chemical list (candidate chemicals) for the safer consumer ...**

Lexology (registration) - 10 hours ago

The California Department of Toxic Substances Control (DTSC) has released its initial list of candidate chemicals pursuant to its Safer Consumer Product Regulations (advisory). A candidate chemical is defined as one that exhibits a “hazard trait and/or an ...

## **Capitol Roundup: New Chemical Regulations; Marijuana Legalization**

Capital Public Radio News - 21 hours ago

Some common household products like carpet adhesive or nail polish could be regulated under a new program designed to limit the use of toxic chemicals. Meanwhile, a top lawmaker comes out against legalizing marijuana as an initiative effort begins.
