

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances through the restoration of contaminated resources, enforcement, regulation and pollution prevention.

HAZ-WASTE REDUCTION INITIATIVE

PROTECTING FAMILIES AND COMMUNITIES

Please join the Department of Toxic Substances Control (DTSC) at two public meetings for the Community Protection and Hazardous Waste Reduction (Haz-Waste Reduction) Initiative. The [Haz-Waste Reduction Initiative](#) is designed to leverage DTSC's stated goal of reducing hazardous waste generated in California and disposed in hazardous waste landfills by 2025. DTSC is working to reduce hazardous wastes that are generated in significant quantities, can pose substantial risks or harm to human health or the environment, and are generated, treated, or disposed in communities that are disproportionately burdened by multiple sources of pollution. DTSC invites the public to participate and provide feedback on these efforts.

Where: Elihu Harris Building, 1515 Clay St., 2nd Floor, Room 11, Oakland, CA 94612.

When: Wednesday April 19 & Thursday April 20, 2017.

Community Meeting Wednesday, 6:00PM – 8:00PM.

Meeting Objectives:

- Overview of hazardous waste in California and the role of DTSC in protecting Californians; and
- A project update on the Haz-Waste Reduction Initiative with opportunity for community feedback.

Advisory Committee Meeting Thursday, 10:00AM – 4:00PM,

Meeting Objective:

- Provide a project update to members of the Advisory Committee and garner input for future action.

Both meetings are open to the public. Agendas and meeting materials will be available prior to the meeting date and can be found at: dtsc.ca.gov/HW-reduction.
