

# ***METAL FINISHING MODEL SHOP PROGRAM***

## ***POLLUTION PREVENTION PLEDGE***

As a business operating within the State of California, I pledge a commitment to prevent pollution by participating in the Metal Finishing Model Shop Program. I will work in cooperation with the program partners to assess my facility for pollution prevention opportunities and develop a program which will:

- ❖ Implement pollution prevention principals in an effort to reduce the waste produced from this businesses operation and to conserve energy and water.
- ❖ Ensure that our employees are aware of our commitment to pollution prevention and understand their role in implementing the businesses pollution prevention objectives and goals.
- ❖ Incorporate pollution prevention principals in the planning of new products, processes, and/or services.
- ❖ Be an environmentally responsible business in our community by complying with all applicable federal, state and local jurisdictional environmental requirements.
- ❖ Make available to our stakeholders, our achievements in reducing waste and our efforts in pollution prevention.
