

COMMUNITY OPEN HOUSE

On Upcoming Remediation Work
PLANNED FOR THE SHERWIN-WILLIAMS SITE
MONDAY, MAY 2, 2011 - 5:30 TO 7:30

The Department of Toxic Substances Control (DTSC) invites you to attend a Community Open House to be held in the Council Chambers in the Emeryville City Hall, 1333 Park Avenue in Emeryville on Monday, May 2, 2011, from 5:30 to 7:30 p.m.

DTSC staff will be available to discuss recent updates to the Community Safety Plan. Sherwin-Williams consultants and contractors will be available to discuss work recently completed at the Site, as well as more pre-remediation activities planned for the Site in May. These will include fencing of the former Rifkin property, installation of sidewalk cover and sound barrier along Horton Street, installation of perimeter air monitoring equipment, on-site extension of the railroad spur, and operation of the soil vapor extraction system. You are invited to attend to learn more about this project and discuss it with the personnel who will be actively involved in the Site work in the near future.

If you have any questions, please contact Janet Naito, DTSC Project Manager, at (510) 540-3833 or via e-mail at JNaito@dtsc.ca.gov. You may also contact Nathan Schumacher, DTSC Public Participation Specialist, at toll free (866) 495-5651 or (916) 255-3650 or via e-mail at NSchumac@dtsc.ca.gov.
