PUBLIC NOTICE OF A PUBLIC MEETING
ON THE SITE INVESTIGATION AT
THE FORMER H.S. MANN MINERALS AND METALS FACILITY
DEL REY, CALIFORNIA

The California Environmental Protection Agency, Department of Toxic Substances Control (DTSC) announces a public meeting, September 20, 2001, on the site investigation conducted at the Former H.S. Mann Minerals and Metals Facility (H.S. Mann). H.S. Mann is located at 5404 South Del Rey Avenue in Del Rey, Fresno County.

H.S. Mann is a former metals recovery facility located in the unincorporated community of Del Rey.   DTSC completed a Remedial Investigation (RI) that investigated the site for evidence of hazardous substance release. The RI shows that H.S. Mann has lead and waste petroleum products present in the soil and groundwater at levels potentially harmful to human health and the environment. Anyone may ask questions, make comments or provide written statements on the RI at the public meeting.

PUBLIC MEETING
September 20, 2001

7:00 P.M.
Del Rey Community Center
10649 East Morro Drive
(Corner of Morro and Jefferson Streets
Del Rey, Calilfornia 93616)

The Del Rey Community Center is acccessible to persons with disabilities
Spanish interpretation will be available

Copies of the RI and other documents related to the RI are available for public review at the established information repository:

The Del Rey Community Center office
