PROPOSITION 65 WARNING

March 21, 2007

RECEIVED

MAR 22 2007

Dear Resident:

EMERGENCY RESPONSE PROGRAM
DEPT OF TOXIC SUBSTANCES CONTROL

Proposition 65 refers to a California ballot measure which was passed into law as the Safe Drinking Water and Toxic Enforcement Act of 1986 (California Health and Safety Code §25249.5 et seq). BKK Corporation is providing this notice in compliance with the law:

BKK Corporation's landfill at 2210 South Azusa Avenue in West Covina, California emits vinyl chloride, which is a chemical known to the State of California to cause cancer. This notice is provided to you because you live within the approximate area in which estimates of the air emissions predict that persons are exposed to vinyl chloride in the air at a level requiring a warning under Proposition 65.

On the other side of this notice is a drawing which shows the houses that are located within the affected area. Based on a rolling average of the most recent year of air sampling data to determine the level in question and a conservative estimate of how the line fits among those data points, the houses located inside the line were assumed to be exposed to vinyl chloride in ambient air at a level which requires a warning. For vinyl chloride, that level is 0.05 parts per billion by volume.

Efforts are being made to reduce vinyl chloride emissions to a level at which modeling of the emissions would indicate No Significant Risk. Progress will continue to be measured by collecting ambient air samples regularly at locations in the neighborhood. BKK Corporation will modify and re-issue this warning in approximately three months, if necessary. If you have any questions about this notice, please call me at (626) 965-0911 x353.

Sincerely,
BKK CORPORATION

By: BAS Construction L.P., agent for BKK Corporation
By: Kelly P. McGregor, R.E.A., President
BAS Construction, LP

Note: Due to a lack of BKK Corporation resources, the state Department of Toxic Substances Control assumed control of critical site operations on a pre-arranged date in November 2004. A subgroup of potentially responsible parties (PRPs) then took over certain activities in March 2006. With regard to the information reported herein, operation of the landfill gas control systems and collection of air quality samples were performed by the PRPs.

Notices are being mailed to the following 13 addresses in West Covina, CA 91792:

- ☐ 2505 and 2509 Marlena Street
- ☐ 2600, 2601, 2602, 2604, 2605, 2606, 2608 and 2609 Myra Court
- ☐ 2420, 2424 and 2428 Nogales Street
