**Subject:** Extension for program enhancements

To whom it may concern,

To date, several manufacturers requested a thirty-day extension (from September 10, 2014 to October 10, 2014) to provide a complete response to DTSC's August 29, 2014 letter. This e-mail extends the due date for the response for all letter recipients to October 10, 2014. DTSC intends to proceed with setting up individual meetings before the October 10, 2014 deadline to allow us to begin a meaningful dialogue with your company.

To facilitate setting up these meetings, please provide the name and appropriate contact information for the person representing your company in the discussions on the thermostat collection program enhancements as soon as possible.

If you have any questions please do not hesitate to contacting Donn Diebert via e-mail or at (916) 322-2505 or Pauline Batarseh at (916) 322-2817.

Sincerely,

Chancellor Howard  
Student Assistant  
Policy Implementation Unit  
Policy Implementation and Support Branch  
Policy and Program Support Division  
Hazardous Waste Management Program  
(916) 324-1814
