

Requirements for HVAC Contractors

California's Mercury Thermostat Collection Act

The Mercury Thermostat Collection Act of 2008 requires HVAC contractors to properly remove and recycle out-of-service mercury-added thermostats.

Effective July 1, 2009, the law requires contractors who install heating, ventilation, and air-conditioning components to:

- Handle and transport out-of-service mercury-added thermostats in accordance with the Universal Waste Regulations (UWR) found in CA Code of Regulations, Title 22, Chapter 23. *For summary of the UWR for out-of-service mercury-added thermostats visit*
http://www.dtsc.ca.gov/HazardousWaste/upload/UW_-_thermostats_NS.pdf
- Take out-of-service mercury-added thermostats to a collection location that is operated in accordance with Universal Waste Regulations.

Collection bins for out-of-service mercury-added thermostats are required by law to be provided at HVAC wholesaler locations in California. *To find a HVAC wholesaler near you, visit*
<http://www.thermostat-recycle.org>¹.

Collection bins may also be found at local government agency household hazardous waste (HHW) collection facilities. *To find a HHW collection facility near you, visit*
http://www.dtsc.ca.gov/HazardousWaste/UniversalWaste/upload/HHW_List_PUBLIC2.pdf

Failure to comply with this law may result in penalties of up to twenty-five thousand dollars (\$25,000) for each separate violation or, for continuing violations, for each day that a violation continues.
