

LIST OF HAZARDOUS WASTES OF CONCERN

NOTE: Senate Bill 489 (2002) defined hazardous wastes of concern (HWC) as having the potential to be intentionally and effectively used to harm the public in a terrorist or other criminal act. Transporters and facilities handling HWC must immediately report missing wastes and submit disclosure statements and fingerprints to DTSC. The HWC Emergency Regulations, fact sheet, and related documents can be found at www.dtsc.ca.gov under Law, Regulations, and Policies, Emergency Regulations.

The following table lists the chemicals, when classified as hazardous wastes, meet the Department of Toxic Substances Control (DTSC) criteria for HWC as explosive, poison, or poisonous gas as adopted on July 1, 2003 in the California Code of Regulations, title 22, section 66261.111, with a July 10, 2003 effective date. The chemical names are excerpted from the U.S. DOT Hazardous Materials Table (as revised October 1, 2002). This list may be updated periodically by future regulations. Contact DTSC at 1-800-72-TOXIC if you have questions.
