

# DTSC's Draft 2018-2020 Priority Product Work Plan

Public Workshop  
February 26, 2018

Rob Brushia, Research Scientist III

Department of Toxic Substances Control

CalEPA

# What is the Work Plan?

What it does:

- Describes product categories
- Covers three years
- Explains policy priorities
- Gives general explanation of decisions

What it doesn't do:

- Name specific product-chemical combinations
- Create legal obligations

*The Work Plan frames our decision-making for  
Priority Product selection*

# Our Approach

- Engage stakeholders.
  - Initial public input
  - State agencies and BDOs
  - U.S. EPA
- Develop goals and policy statements
- Continuity from previous Work Plan

# Policy Statements

DTSC will strive to **protect children**, women of child-bearing age, and pregnant women from exposures to harmful chemicals especially carcinogens, mutagens, reproductive toxicants, neurotoxicants, developmental toxicants, and endocrine disruptors.

DTSC will strive to **protect California's valuable and limited water resources and aquatic ecosystems** from chemicals contamination via wastewater or storm water.

DTSC will strive to protect Californians from chemicals found in the **indoor environment**.

DTSC will strive to protect Californian's from chemicals that **migrate into food from food packaging**.
