

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances through the restoration of contaminated resources, enforcement, regulation and pollution prevention.

EMERGENCY PERMIT
HP Inc.
16399 W. BERNARDO DRIVE
SAN DIEGO, CALIFORNIA, 92127

On December 7, 2018, HP Inc. (HP) requested an Emergency Permit from the California Department of Toxic Substances Control (DTSC) for onsite treatment of expired chemicals at 16399 W. Bernardo Dr., San Diego, CA 92127. The items to be treated include 1x500 milliliter Furan, 1x500 gram Acrylic Acid, and 2x50 gram Benzoyl Peroxide.

Clean Harbors Environmental Service has been contracted to conduct this treatment. The chemicals are potentially reactive and unsafe for transport in their present state. The treatment involves the addition of liquid solution to the container to stabilize the chemicals. Once the chemicals are treated, they will be transported offsite for proper management. DTSC has determined that the chemicals pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an emergency permit should be issued. This Emergency Permit is effective from December 28, 2018 through March 27, 2019. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA): DTSC has determined that the project is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, HP's request for this project are available for review at the file room located at:

DTSC Sacramento Regional Office
8800 Cal Center Drive
