

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.

EMERGENCY PERMIT

CRAFTON HILLS COLLEGE

11711 SAND CANYON ROAD
YUCAIPA, CALIFORNIA 92399

On December 3, 2018, Crafton Hills College requested an Emergency Permit from the California Department of Toxic Substances Control (DTSC) for onsite treatment of expired chemicals at 11711 Sand Canyon Road, Yucaipa, California. The item to be treated is 100 grams or less of 2,4 Dinitrophenylhydrazine (chemical) in a container. The chemical is potentially reactive and unsafe for transport in their present state. DTSC has determined that the chemical poses an imminent and substantial endangerment to human health and the environment if not properly managed.

Clean Harbors Environmental Services has been contracted to conduct this treatment. The treatment involves the addition of liquid solution to the container to stabilize the chemical. Once the chemical is treated, it will be transported offsite for proper management. Therefore, an emergency permit should be issued. This Emergency Permit is effective from December 18, 2018 through February 15, 2019. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA): DTSC has determined that the project is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, and Crafton Hills College's request for this project are available for review at the file room located at:

DTSC Sacramento Regional Office
8800 Cal Center Drive
