

# Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.

## EMERGENCY PERMIT ALZA CORPORATION VACAVILLE, CALIFORNIA 95688

On December 21, 2018, ALZA Corporation (ALZA) requested an Emergency Permit from the California Department of Toxic Substances Control (DTSC) for onsite treatment of an expired chemical at 700 Eubanks Drive, Vacaville, California 95688. The chemical to be treated includes 100 grams of 2,4 Dinitrophenylhydrazine. DTSC has determined that the chemical pose an imminent and substantial endangerment to human health and the environment if not properly managed. The chemical is potentially reactive and unsafe for transport in their present state.

The treatment involves the addition of liquid solution to the container to stabilize the chemical. Clean Harbors Environmental Service has been contracted to conduct this treatment. Once the chemical is treated, it will be transported offsite for proper management. Therefore, an emergency permit should be issued.

This Emergency Permit is effective from **January 14, 2019 through March 14, 2019**. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):** DTSC has determined that the project is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, ALZA's request for this project are available for review at the file room located at:

DTSC Sacramento Regional Office  
8800 Cal Center Drive  
Sacramento, California 95826
