

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.

EMERGENCY PERMIT University of California Davis DAVIS, CALIFORNIA 95616

The University of California – Davis (UC-Davis) requested an Emergency Permit from the California Department of Toxic Substances Control (DTSC) for onsite treatment of expired chemicals. The items to be treated includes 3x100 ml, 1x250ml, 1x1L containers of Styrene, 250-ml container of Methacrylic Acid, 50-gram container of Benzoyl Peroxide, and a 100-gram container of Diazald. The items are being stored at the Environmental Services Facility located at 2201 Environmental Services Lane, Davis, CA, 95616.

Clean Harbors Environmental Services has been contracted to conduct this treatment. These chemicals are potentially reactive and unsafe for transport in their present state. The treatment involves the addition of liquid solution to the containers to stabilize the chemical and will take place in an exclusion zone near the storage location. Once the chemicals are treated, they will be transported offsite for proper management. DTSC has determined that these chemicals pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an emergency permit should be issued. This Emergency Permit is effective from February 8, 2019 through April 1, 2019. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA): DTSC has determined that the project is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, UC-Davis's request for this project are available for review at the file room located at:

DTSC Sacramento Regional Office
8800 Cal Center Drive
