Dear Ms. Holmes-Gen,

Thank you very much for the opportunity to comment on SB673 Permit Protections for Vulnerable Communities Project.

Below, please find our comments.

1)The proposal, should require an updated EIR and technology review at all their permitted sites. A recent permit was granted in Vernon to a site with an EIR done in 1996.

2)We cannot emphasize enough that existing state-mandated public involvement requirements prior to permitting sites must be followed.

3)Facilities do not need to be tiered.

Respectfully,

Robina Suwol
