

Public Notice

The mission of DTSC is to protect California's people and environment from harmful effects of toxic substances by restoring contaminated resources, enforcing hazardous waste laws, reducing hazardous waste generation, and encouraging the manufacture of chemically safer products.

EMERGENCY PERMIT HEXCEL CORPORATION 11711 DUBLIN BOULEVARD DUBLIN, CALIFORNIA 94568

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to the Hexcel Corporation (Hexcel) for onsite treatment of expired chemicals. The items treated included one 1-liter container and two 1-gallon containers of Tetrahydrofuran. The items were stored at Hexcel located at 11711 Dublin Boulevard, Dublin, California, 94568.

ACT enviro was contracted to conduct this treatment. These chemicals were potentially reactive and unsafe for transport in their original state. The treatment involved the addition of liquid solution to the containers to stabilize the chemicals and took place in an exclusion zone near the storage location. Once the chemicals were treated, they were transported offsite for proper management. DTSC had determined that these chemicals posed an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an emergency permit was issued. This Emergency Permit is effective from **March 18, 2019 through May 18, 2019**. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENT QUALITY ACT (CEQA): DTSC has determined that the project is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, Hexcel's request for this project are available for review at the file room located at:

DTSC Sacramento Regional Office
8800 Cal Center Drive
Sacramento, California 95826
