Hazardous Waste Emergency Permit For DRS DAYLIGHT SOLUTIONS CORPORATION 15378 Avenue of Science, San Diego, California 92128

Para información en español por favor comuníquese con Manuel Lopez al número (818) 717-6575

EMERGENCY PERMIT: The California Department of Toxic Substances Control (DTSC) issued an Emergency Permit to DRS Daylight Solutions (DRS) for onsite treatment of an expired chemical. The item that was treated included a 2-liter container of Tetrahydrofuran. The item was stored at DRS located at 15378 Avenue of Science, San Diego, CA 92128.

Clean Harbors Environmental Services had been contracted to conduct this treatment. This chemical was potentially reactive and unsafe for transport in its previous state. The treatment involved the addition of liquid solution to the container to stabilize the chemical and took place in an exclusion zone near the storage location. Once the chemical was treated, it was transported offsite for proper management. DTSC had determined that this chemical posed an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an emergency permit was issued. This Emergency Permit was effective from April 22, 2019 through June 24, 2019. The Emergency Permit included measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA): DTSC had determined that the project was exempt from the requirements of CEQA and had filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, DRS's request for this project are available for review at the file room located at:

DTSC Cal Center Regional
Office 8800 Cal Center Drive
Sacramento, California 95826
