**EMERGENCY PERMIT:** The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to TA Manufacturing for onsite treatment of expired chemicals at 28065 Franklin Parkway, Valencia, California. The items to be treated are three 50-gram containers of Benzoyl Peroxide. The chemicals are potentially reactive and unsafe for transport in their present state. DTSC determined that they pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an emergency permit should be issued.

Clean Harbors Environmental Services has been contracted to conduct this treatment. The treatment involves the addition of liquid solution to the containers to stabilize the chemicals. Once they are treated, they will be transported offsite for proper management. This Emergency Permit is effective from July 5, 2019 through September 2, 2019. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):** DTSC has determined that the project is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, and TA Manufacturing's request for this project are available for review at the file room located at:

DTSC Cal Center Office  
8800 Cal Center Drive  
Sacramento, California 95826
