DRAFT LAND USE COVENANT RAYTHEON COMPANY

2000 E. EL SEGUNDO BLVD., EL SEGUNDO, CALIFORNIA 90245

WHAT IS BEING PROPOSED: The California Department of Toxic Substances Control (DTSC) invites public comment on the draft Land Use Covenant (LUC) for the Raytheon Company property, located at 2000 E. El Segundo Blvd, El Segundo (Site). DTSC is the lead regulatory agency for the implementation of the LUC for the Site. Implementation of the LUC will restrict the use of the property in order to protect present or future human health or safety of the environment.

The Site was used for aerospace research and light manufacturing from the early 1980s through the early 1990s. Today the Site is used mostly for administration, engineering, and electronics assembly. A recent environmental assessment indicates that chemicals such as trichloroethylene (TCE) and tetrachloroethylene (PCE), as well as arsenic, are present in the soil at the Site. DTSC has determined that because of levels, the Site should be restricted to commercial and/or industrial use in the future. Restricting this Site in this manner will reduce exposure to any potentially harmful chemicals and will help protect the community from any hazards that remain at the Site.

HOW YOU CAN PARTICIPATE: A comment period is being held to receive public comments on the draft LUC. The comment period is from **August 17, 2020 to September 17, 2020**. All public comments must be postmarked or e-mailed **no later than 11:59 pm on September 17, 2020** and sent to: Daniel Philo, DTSC Project Manager, 9211 Oakdale Avenue, Chatsworth, CA 91311.

E-mail Daniel.Phil@dtsc.ca.gov.
