

DTSC PUBLIC NOTICE

Department of Toxic Substances Control – Our mission is to protect the people, communities, and environment of California from harmful chemicals by cleaning up contaminated sites, enforcing hazardous waste laws, and compelling the development of safer products.

EMERGENCY PERMIT
ABBVIE, LLC
2525 DUPONT DRIVE
IRVINE, CALIFORNIA 92612

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to ABBVIE, LLC., for onsite treatment of expired chemicals at 2525 Dupont Drive. The item to be treated include one (1) container of Tetrahydrofuran.

The Clean Harbors Environmental Services (Clean Harbors) has been contracted to conduct this treatment. The chemical is potentially reactive and unsafe for transport in its present state. The treatment involves the addition of a liquid solution to the container to stabilize the chemical. Once the chemical is treated, it will be transported offsite for proper management. DTSC has determined that the chemical pose an imminent and substantial endangerment to human health and the environment if not responsibly managed. Therefore, an emergency permit should be issued. This Emergency Permit is effective from September 28, 2022 through November 27, 2022. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA): DTSC has determined that the issuance of this permit is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, ABBVIE, LLC's request for this project are available for review at the file room located at:

DTSC Sacramento Regional Office
8800 Cal Center Drive
