# DTSC PUBLIC NOTICE

---

**Department of Toxic Substances Control** – Our mission is to protect the people, communities, and environment of California from harmful chemicals by cleaning up contaminated sites, enforcing hazardous waste laws, and compelling the development of safer products.

---

**EMERGENCY PERMIT  
KAISER PERMANENTE  
914 Marina Way South  
Richmond, California 94804**

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to Kaiser Permanente for onsite treatment of expired chemicals at 914 Marina Way South, Richmond, CA 94804. The item to be treated include one (1) container of Diethyl Ether.

The Clean Harbors Environmental Services (Clean Harbors) has been contracted to conduct this treatment. The chemical is potentially reactive and unsafe for transport in its present state. The treatment involves the addition of liquid solution to the container to stabilize the chemical. Once the chemical is treated, it will be transported offsite for proper management. DTSC has determined that the chemical poses an imminent and substantial endangerment to human health and the environment if not properly managed therefore, an emergency permit has been issued. This Emergency Permit is effective from July 22, 2022 through September 19, 2022. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):** DTSC has determined that the issuance of this permit is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE and Kaiser Permanente's request for this project are available for review at the file room located at

DTSC Sacramento Regional Office  
8800 Cal Center Drive  
Sacramento, California 95826
