

# DTSC PUBLIC NOTICE

**Department of Toxic Substances Control** – Our mission is to protect California's people, communities, and environment from toxic substances, to enhance economic vitality by restoring contaminated land, and to compel manufacturers to make safer consumer products.

## EMERGENCY PERMIT TO MANAGE HAZARDOUS WASTE

**BAUSCH HEALTH AMERICA INC.  
1330 REDWOOD WAY  
PETALUMA, CALIFORNIA 94954**

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to Bausch Health America Inc. for onsite treatment of an expired chemical at 1330 Redwood Way, Petaluma, California 94954. The item treated includes one (1) 25-gram container of 2,4-Dinitrophenylhydrazine.

Advanced Chemical Transport, LLC (ACT) dba ACTenviro has been contracted to conduct the treatment. The chemical is potentially reactive and unsafe for transport in their present state. The treatment involves the addition of solution to the container to stabilize the chemical. Once the chemical is treated, it will be transported offsite for proper management. DTSC has determined that this chemical poses an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an Emergency Permit should be issued. This Emergency Permit is effective from July 2, 2024 through August 2, 2024. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):** DTSC has determined that the issuance of this permit is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, and Bausch Health America Inc.'s request for this project is available upon request from the Project Manager or for review at the file room located at:

DTSC Sacramento Regional Office  
8800 Cal Center Drive  
Sacramento, California 95826
