**Department of Toxic Substances Control** – Our mission is to protect the people, communities, and environment of California from harmful chemicals by cleaning up contaminated sites, enforcing hazardous waste laws, and compelling the development of safer products.

#### EMERGENCY PERMIT THE GENENTECH, SOUTH SAN FRANCISCO, 700 FORBES BOULEVARD, BUILDING 7 SOUTH SAN FRANCISCO, CALIFORNIA 94080

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to Genentech, South San Francisco for onsite treatment of expired chemicals at 700 Forbes Boulevard, Building 7. The items to be treated include: one (1) container of tetrahydrofuran.

The Clean Harbors Environmental Services (Clean Harbors) has been contracted to conduct the treatment. The chemicals are potentially reactive and unsafe for transport in their present state. The treatment involves the addition of solutions to the containers to stabilize the chemicals. Once the chemicals are treated, they will be transported offsite for proper management. DTSC has determined that these chemicals pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an Emergency Permit should be issued. This Emergency Permit is effective from June 19, 2023, through September 16, 2023. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):** DTSC has determined that the issuance of this permit is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, Genentech's request for this project is available for review at the file room located at:

#### EMERGENCY PERMIT THE GENENTECH, SOUTH SAN FRANCISCO 340 POINT SAN BRUNO BOULEVARD, BUILDING 15 SOUTH SAN FRANCISCO, CALIFORNIA 94080

The California Department of Toxic Substances Control (D T S C) has issued an Emergency Permit to Genentech, South San Francisco for onsite treatment of expired chemicals at 340 Point San Bruno Boulevard, Building 15. The items to be treated include: six (6) containers of methyl isobutyl ketone, two (2) containers of 1,4 dioxane, one (1) container of cyclopentyl methyl ether, one (1) container of tert-butyl vinyl ether, one (1) container of 2methyl-2-butanol, ten (10) containers of tetrahydrofuran, one (1) container of 2-methyltetrahydrofuran, nine (9) containers of diethyl ether, eight (8) containers of 1,2 dimethoxyethane, one (1) 1-H benzotriazole, one (1) container of 1-hydroxybenzotriazole, one (1) container of sodium amide, one (1) container of 2,4 dinitrophenol, one (1) container of 2,4 dinitrophenylhydrazine, one (1) container of dinphenylphosphoryl azide, two (2) containers of borane THF complex, one (1) container of MEK peroxide, one (1) container of potassium, one (1) container of 1H-tetrazole, one (1) container of sodium azide, one (1) container of styrene, one (1) container of acrylonitrile, one (1) container of cyclohexadiene, one (1) container of isobutyl vinyl ether, one (1) container of benzoyl peroxide, one (1) container of 2,2 azobisisobutyronitrile, one (1) container of diazald, three (3) containers of p-toluene sulfonyl azide, one (1) container of picrylsulfonic acid, one (1) container of 3-chloropeoxybenzoic acid, one (1) container of 1-hydroxy-7-azabenzotriazole, one (1) container of 1,3,5 trinitrobenzene, one (1) container of picric acid, one (1) container of nitrocellulose, one (1) container of picramic acid, and one (1) container of 5-amino-1H-tetrazole.

The Clean Harbors Environmental Services (Clean Harbors) has been contracted to conduct the treatment. The chemicals are potentially reactive and unsafe for transport in their present state. The treatment involves the addition of solutions to the containers to stabilize the chemicals. Once the chemicals are treated, they will be transported offsite for proper management. D T S C has determined that these chemicals pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an Emergency Permit should be issued. This Emergency Permit is effective from June 19, 2023, through September 16, 2023. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (C E Q A):** D T S C has determined that the issuance of this permit is exempt from the requirements of C E Q A and has filed a Notice of Exemption (N O E) with the State Clearinghouse. The Emergency Permit, N O E, Genentech's request for this project is available for review at the file room located at:
