

DTSC PUBLIC NOTICE

Department of Toxic Substances Control – Our mission is to protect California's people, communities, and environment from toxic substances, to enhance economic vitality by restoring contaminated land, and to compel manufacturers to make safer consumer products.

EMERGENCY PERMIT CALIFORNIA STATE UNIVERSITY EAST BAY CONCORD 4700 YGNACIO VALLEY ROAD CONCORD, CALIFORNIA 94541

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to California State University (CSU), East Bay Concord for onsite treatment of expired chemical at 4700 Ygnacio Valley Road. The items to be treated include: two (2) containers of diethyl ether.

The Clean Harbors Environmental Services (Clean Harbors) has been contracted to conduct the treatment. The chemicals are potentially reactive and unsafe for transport in their present state. The treatment involves the addition of solutions to the containers to stabilize the chemicals. Once the chemicals are treated, they will be transported offsite for proper management. DTSC has determined that these chemicals pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an Emergency Permit should be issued. This Emergency Permit is effective from July 17, 2023, through September 14, 2023. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA): DTSC has determined that the issuance of this permit is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, CSU East Bay's request for this project is available for review at the file room located at:
