

# DTSC PUBLIC NOTICE

**Department of Toxic Substances Control** – Our mission is to protect California's people, communities, and environment from toxic substances, to enhance economic vitality by restoring contaminated land, and to compel manufacturers to make safer consumer products.

## **EMERGENCY PERMIT ILLUMINA 200 LINCOLN CENTER DRIVE FOSTER CITY, CALIFORNIA 94404**

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to Illumina for onsite treatment of expired chemicals at 200 Lincoln Center Drive, Foster City, CA 94404. The items to be treated include one (1) container of Poly (Acrylic Acid), one (1) container of Acrylonitrile, two (2) containers of Acrylic Acid, one (1) container of Azobis (2-Amidinopropane) Dihydrochloride.

The Clean Harbors Environmental Services (Clean Harbors) has been contracted to conduct this treatment. The chemicals are potentially reactive and unsafe for transport in their present state. The treatment involves the addition of liquid solution to the containers to stabilize the chemicals. Once the chemicals are treated, they will be transported offsite for proper management. DTSC has determined that the chemicals pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an emergency permit should be issued. This Emergency Permit is effective from October 18, 2023 through December 18, 2023. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

**CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):** DTSC has determined that the issuance of this permit is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, and Illumina's request for this project are available for review at the file room located at:

**DTSC Sacramento Regional Office**
