

DTSC PUBLIC NOTICE

Department of Toxic Substances Control – Our mission is to protect the people, communities, and environment of California from harmful chemicals by cleaning up contaminated sites, enforcing hazardous waste laws, and compelling the development of safer products.

EMERGENCY PERMIT CALIFORNIA STATE UNIVERSITY, EAST BAY, HAYWARD 125800 CARLOS BEE BOULEVARD HAYWARD, CALIFORNIA 94542

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to California State University, East Bay Hayward (CSU East Bay) for onsite treatment of expired chemicals at 25800 Carlos Bee Boulevard, Hayward, California 94542. The items to be treated include: eleven (11) containers of diethyl ether, one (1) container of cumene, six (6) containers of benzyl alcohol, and one (1) container of cyclohexene.

The Clean Harbors Environmental Services (Clean Harbors) has been contracted to conduct the treatment. The chemicals are potentially reactive and unsafe for transport in their present state. The treatment involves the addition of solutions to the containers to stabilize the chemicals. Once the chemicals are treated, they will be transported offsite for proper management. DTSC has determined that these chemicals pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an Emergency Permit should be issued. This Emergency Permit is effective from July 17, 2023, through September 14, 2023. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA): DTSC has determined that the issuance of this permit is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, and CSU East Bay's request for this project are available for review at the file room located at:

DTSC Sacramento Regional Office
8800 Cal Center Drive
