

DTSC PUBLIC NOTICE

Department of Toxic Substances Control – Our mission is to protect California's people, communities, and environment from toxic substances, to enhance economic vitality by restoring contaminated land, and to compel manufacturers to make safer consumer products.

EMERGENCY PERMIT TE CONNECTIVITY 6900 PASEO PADRE PARKWAY FREMONT, CALIFORNIA 94555

The California Department of Toxic Substances Control (DTSC) has issued an Emergency Permit to TE Connectivity for on-site treatment of expired chemicals at 6900 Paseo Padre Parkway, Fremont, California 94555. The items to be treated include three (3) containers of Ethylene Glycol Butyl Ether.

The Clean Harbors Environmental Services (Clean Harbors) has been contracted to conduct this treatment. The chemicals are potentially reactive and unsafe for transport in its present state. The treatment involves the addition of liquid solution to the containers to stabilize the chemicals. Once the chemicals are treated, they will be transported off-site for proper management. DTSC has determined that the chemicals pose an imminent and substantial endangerment to human health and the environment if not properly managed. Therefore, an emergency permit should be issued. This Emergency Permit is effective from March 7, 2024 through June 4, 2024. The Emergency Permit includes measures to minimize any adverse impact to the community and the environment.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA): DTSC has determined that the issuance of this permit is exempt from the requirements of CEQA and has filed a Notice of Exemption (NOE) with the State Clearinghouse. The Emergency Permit, NOE, and TE Connectivity's request for this project are available for review at the file room located at:

DTSC Sacramento Regional Office
8800 Cal Center Drive
